COMPLAINT FOR DAMAGES AND DEMAND FOR JURY TRIAL
(42 U.S.C § 1983—Violation of Civil Rights)

Gabrielle Chipps, by and through her guardians, Holly Chipps and Timothy Chipps, and Holly Chipps and Timothy Chipps, individually, by and through counsel, Libbey Law Offices LLC, bring this lawsuit against Matthew Sprenger:

I. Introduction

This is a Section 1983 civil rights action brought under federal laws. On February 8, 2020, 21-year-old Gabrielle Chipps (“Gabby”) attempted suicide in her isolated segregation cell while in the care of the State of Alaska, Department of Corrections (“SOA, DOC”). Upon her arrival to Wildwood Pretrial Facility, Gabby’s first time in jail, on January 22, 2020, she was placed on suicide precautions and restricted from being in possession of any sharps or razors that she could use to harm herself with.

Despite having actual notice more than 10 years prior to this incident that SOA, DOC policies and practices for suicide prevention and segregation housing were in violation of federal standards and protocols, Defendants continued in these dangerous policies. This resulted in many unnecessary inmate deaths and caused Gabby’s injuries in this case.

SOA, DOC had many policies and procedures in place requiring suicide prevention actions to be taken for the safety of inmates like Gabby on suicide precautions. Despite having ample notice that Defendants’ policies and practices were in violation of national standards, and despite being well aware of Gabby’s high risk for suicide, Defendants

repeatedly violated SOA, DOC policies and procedures and failed to monitor and supervise Gabby after placing her in segregation housing, or to take any steps for her safety while she was in their care.

As a disciplinary measure, and as a punitive measure, Gabby was left unmonitored, ignored, and neglected in her isolated segregation cell, in violation of SOA, DOC policy and national standards and protocols. During this time, having been unmonitored, ignored, and neglected in her isolated segregation cell, Gabby hanged herself from her bedsheet wrapped around her neck and attached to her window. By the time she was finally checked by Defendants, Gabby had suffered severe permanent physical injury, and had become non-responsive.

Following Gabby's suicide attempt, and despite her immediate life-threatening condition, Defendants waited five hours before attempting to notify Gabby's parents, Timothy and Holly Chipps, of the circumstances and of her condition. This failure to notify Gabby's parents was in violation of SOA, DOC's policies and procedures on notification of family members in these circumstances.

Gabrielle is alive, but with serious and permanent debilitating physical injuries, requiring continued and extensive medical care for the rest of her life. But for Defendants' reckless and repeated violations of SOA, DOC policies and procedures in failing to address Gabby's high risk of suicide, including but not limited to, the failure to properly monitor her and provide her with necessary mental health treatment, Gabby would not have suffered

these injuries. Defendants repeatedly violated Gabby's State and Federal constitutional rights, causing her serious and permanent injury.

There is a related case 3:21-cv-00011-JMK with related allegations against State employees. This matter is a related case but against Matthew Sprenger, who was not previously identified.

IV. Factual Background

A. Despite Actual Notice More Than 10 Years Prior to This Incident of Policies and Practices in Violation of Federal Standards and Protocols, Defendants Continued in These Dangerous Policies, Causing Gabby's Serious Permanent Injuries in This Case.

21. In 2008 and 2009, the American Civil Liberties Union of Alaska ("ACLU"), with the assistance of Yale Law School, conducted an in depth and detailed inspection and review of the SOA, DOC with the cooperation of the Commissioner of SOA, DOC.

22. The ACLU worked closely with the special assistant to the Commissioner of SOA, DOC in developing drafts of the reports and in obtaining important data and information for the final report.

23. The ACLU published the final report of its inspection and review of SOA, DOC in March 2010.

24. In its findings, the ACLU found SOA, DOC suicide prevention policies to be in violation of national standards for suicide prevention in jails.

25. In 2008, the National Commission on Correctional Health Care ("NCCHC") stated that inmates at risk for suicide should not be placed in segregation except where they are continually monitored, and instead should be housed in general population, a medical health unit, or medical infirmary, where they can be located close to staff and in cells with no protrusions of any type that could be used by an inmate for hanging.

26. In 2010, SOA, DOC policy violated NCCHC standards by failing to require that inmates on suicide precautions are continually monitored while on suicide precautions in segregated housing.

27. 2010 SOA, DOC policy for inmates on suicide precautions provided two housing options, one “in general population with other prisoners, observed and closely supervised by staff” and another in “single cell/segregation” housing with close supervision which “may include” observation “every five to 15 minutes.” Neither of these housing options complied with the 2008 NCCHC standard of continual monitoring for inmates on suicide precautions in segregation.

B. SOA, DOC Policy More Than 10 Years Ago Violated NCCHC Standards By Universally Placing Inmates On Suicide Precautions Into Segregation Units and Violating Protocols for Assessment and Treatment of Suicide Risk Inmates.

28. More than 10 years ago, SOA, DOC policy was to place inmates on suicide precautions in segregated housing, as is demonstrated by SOA, DOC Policy form 807.20A, which states in pertinent part: “Suicide Precautions: Subject prisoner is considered a risk for suicide. Accordingly, the following suicide precautions are recommended. This prisoner is hereby recommended for placement in segregation by a mental health or medical professional.” (emphasis in original).

29. This policy is confirmed through numerous interviews conducted by ACLU more than 10 years ago showing SOA, DOC inmates on suicide precautions were nearly universally placed in seclusion by SOA, DOC in a segregation unit or intake cell.

30. In 2008, the National Commission on Correctional Health Care recommended that prison health care providers identify and address the underlying reasons for the inmate's risk of suicide, as well as the treatment needs when the inmate is at heightened suicide risk, and follow-up treatment and strategies to prevent relapse.

31. The inmates interviewed by ACLU more than 10 years ago, however, reported both that they were placed in segregation as a result of their suicide risk, and that they did not receive any ongoing or follow-up treatment to address the underlying reasons for their suicide risk or mental health concerns.

C. In 2015, A Governor Ordered Review of SOA, DOC Cited a Study Finding Inmates in Segregation Units Were Significantly More Likely to Commit Suicide, and Found Suicide Prevention Policy Had Not Been Updated In 20 Years.

32. In 2015, the governor of Alaska appointed a team to conduct an administrative review on SOA, DOC, and issue a report, following several inmate deaths.

33. The 2015 report documented that the SOA, DOC had not updated its suicide awareness and prevention policy for 20 years.

34. The 2015 review cited to studies reporting on the negative impacts of segregation on inmates.

35. One such study cited by the 2015 report found that inmates with mental illness placed in segregated housing were significantly more likely to commit acts of fatal self-harm.

The 2015 report documented that SOA, DOC's policies and practices on the use of segregated housing for inmates warranted review "to ensure that it is being used sparingly and appropriately."

D. The 2015 Review Concluded DOC Was Not Properly Responding to Suicide and Expressed Concern that the Department of Law Was Trying to Prevent SOA, DOC From Documenting Facts Surrounding Inmate Deaths and That Many Officers Had Not Received Updated Training in Many Years.

36. The 2015 report documented concern about the level of involvement that the Alaska Department of Law exercised in implemented SOA, DOC "policies and operations."

37. The 2015 DOC Report reviewed inmate suicide cases and instructed DOC policy should change.

38. The 2015 DOC report concluded that inmates exhibiting suicide risk need to be monitored and on suicide precautions and immediate response is warranted in cases of active suicide.

39. The 2015 Report documents two inmates that exhibited suicide risk that should have caught the attention of SOA, DOC staff for monitoring and placement on suicide precaution status.

40. These inmates were not monitored or placed on suicide precautions by SOA, DOC.

41. The 2015 Report instructed that SOA, DOC revision of suicide policy should be “a clear and compelling priority” and should reflect that inmates exhibiting suicide risk should be monitored and placed on suicide precautions.

42. The 2015 report documented an inmate serving a parole violation that had reported anxiety and depression.

43. The inmate was observed trying to hang himself with a shoelace and SOA, DOC officers were immediately alerted.

44. In Gabby’s case, SOA, DOC officers were outside the cell but did not enter the cell for nearly a minute while she hung herself.

45. The 2015 Report instructed that SOA, DOC policy needs to be changed and “immediate response is warranted in cases of active suicide where there is no conflicting safety or security threat.”

46. The 2015 Report instructed that SOA, DOC needs “to establish a system-wide expectation of zero suicides” and a policy that “any suicide is unacceptable.”

47. The 2015 report interviewed SOA, DOC personnel that explained the Alaska Department of Law “expressed concern that documenting all the facts” surrounding inmate deaths “might make it easier for the state to be found financially liable for the death.”

48. The 2015 report found this to be an overreach of the Alaska Department of Law’s relationship with SOA, DOC.

49. The 2015 report interviewed correctional officers who explained that the Correctional Officer Academy was referred to as the “academy way” that work was to be done, and this differed from the “real way” work was done in SOA, DOC institutions.

50. The 2015 report documented that many correctional officers had not received updated training courses in many years.

51. The 2015 report recommended that all SOA, DOC policies be updated within six months.

52. The 2015 report recommended that SOA, DOC prioritize the reduction in use of segregated housing.

53. The 2015 report recommended that the Alaska Department of Law not be in a position of acting as “gatekeeper” in the SOA, DOC policy approval process.

54. The 2015 report recommended that SOA, DOC develop “policies and practices” for the proper initial training, and continual assessment and training of all correctional officers.

E. Despite Ample Notice, SOA, DOC Policies and Practices Fail to Monitor and Fail to Provide Mental Health and Medical Treatment, Resulting In Numerous Inmate Deaths, and Permanent Injuries to Gabrielle Chipps.

55. On April 4, 2014, inmate Devon Mosely died in his segregation cell after SOA, DOC failed to monitor and failed to provide mental health care and medical care while Mr. Mosely was in his segregation housing.

56. On April 10, 2014, inmate April Kernak died on the floor of her cell following SOA, DOC's failure to monitor and failure to provide medical care to Ms. Kernak in her cell.

57. On May 14, 2014, inmate Mark Bolus died from a suicide attempt in his segregation cell as a result of SOA, DOC's failure to monitor and failure to provide mental health treatment to Mr. Bolus in his segregation housing.

58. On June 6, 2014, inmate Kirsten Simon died in her cell due to SOA DOC's failure to monitor and failure to provide medical care to Ms. Simon in her jail cell.

59. On August 14, 2015, inmate Joseph Murphy died in his cell as a result of SOA, DOC's failure to monitor and failure to provide medical care for Mr. Murphy in his cell.

60. In January 2016, inmate Kellsie Green died in her segregation cell following SOA, DOC's failure to monitor and failure to provide mental health and medical care to Ms. Green in her cell.

61. On November 16, 2016, inmate Kristoffer Reuer died after an apparent suicide attempt in segregated housing following SOA, DOC's failure to monitor and to provide mental health and medical treatment for Mr. Reuer in his segregation cell.

62. In June 2017, inmate Arlo Olson died from a suicide attempt subsequent to SOA, DOC's failure to monitor and failure to provide mental health care to Mr. Olson in his cell.

63. On August 21, 2017, inmate Antonio Roberson died from a suicide attempt in his segregation cell due to SOA DOC's failure to monitor and failure to provide mental health treatment for Mr. Roberson in his segregation housing.

64. In August, 2018, inmate Kendall Barrett died from a suicide attempt after SOA, DOC's failure to monitor and provide mental health treatment for Mr. Barrett.

65. On October 26, 2018, inmate Doran Jennings died of an apparent suicide in segregated housing subsequent to SOA, DOC's failure to monitor and failure to provide mental health treatment for Mr. Jennings in his segregation cell.

F. Defendants Documented that this Was Gabby Chipps' First Time in Jail and Documented Gabby to Be Under the Influence of Drugs at the Time of Her Arrest.

66. On January 19, 2020, Gabby was arrested and taken to Homer Jail.

67. For Gabby's initial booking screen, in answer to the question: "Does the detainee appear to be under the influence of any drug?" Homer Jail staff circled "YES" and wrote in "herion."

68. For Gabby's initial health screen, in answer to the question: "Does the prisoner appear to be under the influence of barbiturates, heroin, or any other drugs?" Homer Jail staff again circled "YES."

69. For Gabby's initial health screen, in answer to the question: "Does the prisoner's behavior suggest the risk of assault to staff or to other prisoners?" Homer Jail staff circled "NO."

70. For Gabby's booking record, in answer to the inquiry for "NAME AND ADDRESS OF EMERGENCY CONTACT" Homer Jail staff documented "Timothy Chipps . . . Father" and included Timothy Chipps' phone number.

71. Gabby was transferred from Homer Jail to Wildwood Pretrial Facility ("WPT") on January 22, 2020.

72. At Gabby's initial booking screen at WPT, SOA, DOC medical staff had knowledge of the information from Gabby's initial booking and medical screen from Homer jail, and documented "Homer med screen attached to this file too."

73. SOA, DOC security staff had knowledge of and possession of Gabby's booking records from the Homer Jail.

74. At Gabby's initial booking screen at WPT, it was observed and documented by SOA, DOC medical staff that this was Gabby's first time to ever be in jail and that she admitted to using heroin a few weeks prior.

75. At the time of her booking, SOA, DOC medical staff checked "No" for "Venereal Disease" and "3 weeks ago" for "last menstrual period." Medical staff also referred Gabby to behavioral health for evaluation by a mental health counselor and assigned her to "Detox Cell/Booking" for housing.

G. Gabby Was Placed on Suicide Precautions Immediately Upon Her Arrival at Wildwood Pretrial Facility and Defendants Failed to Follow SOA, DOC Policies and Procedures on Suicide Assessment, Prevention, and Ongoing Suicide Evaluation.

76. On January 22, 2020, Gabby was placed on “Suicide Precautions” which included that she be given “No Sharps or Razors.” *See* Exhibit 1.

77. Exhibit 1 attached is the DOC individual determination form for Gabrielle Chipps. The form clearly identifies suicide precautions of “No Sharps or Razors.”

78. Next to “No Sharps or Razors” the form is initialed by a DOC employee and dated 1/22/2020 by a DOC employee.

79. DOC has not identified who the employee is that initialed the document on 1/22/20.

80. At the bottom of the page on Exhibit 1 is Superintendent Milburn’s signature.

81. When Superintendent Milburn signed Exhibit 1, he was aware that Gabby was to receive “No Sharps or Razors” while at Wildwood Pretrial Facility.

82. On 1/22/20, Superintendent Milburn was aware that “No Sharps or Razors” were to be given to Gabby while she was at Wildwood Pretrial.

83. Gabby’s SOA, DOC institutional file and Segregation Logs indicate Gabby received razors on several days while she was at Wildwood Pretrial Facility.

84. SOA, DOC employees provided Gabby with razors while she was at Wildwood Pretrial Facility.

85. SOA, DOC Policy 807.20, Section IIB, dated September 6, 2019, states in pertinent part: “Any employee who identifies a prisoner as being at risk for suicide shall follow the procedures outlined in section III below, to ensure the safety of the prisoner.”

86. Section III of the September 6, 2020 Suicide Precautions policy 807.20, states in relevant part:

III. Initiation of Suicide Prevention Status:

- A. Not leave the prisoner unattended;

- F. Ensure that a Suicide Prevention Status Orders-Placement (Attachment A) is completed and routed to designated staff; and
- G. Observe the prisoner based on the order documented on the Suicide Prevention Status Orders – Placement (Attachment A).

87. Despite Gabby being placed on suicide precautions on January 22, 2020, SOA, DOC failed to document in writing that SOA, DOC personnel did not leave Gabby unattended.

88. Despite Gabby being placed on suicide precautions on January 22, 2020, Gabby was left unattended on a regular basis.

98. Despite Gabby being placed on suicide precautions on January 22, 2020, Defendants failed to document and complete a written SAFE-T form attached as Exhibit 3, as required by its policies and procedures, to determine Gabby's "degree of risk, level of supervision needed, treatment," and whether Gabby's "suicide risk is associated with symptoms of mental illness, substance use, or situational." 103. On January 19, 2020, for Gabby's initial health screen, in answer to the question: "Does the prisoner's behavior suggest the risk of assault to staff or to other prisoners?" Homer Jail staff circled "NO."

104. On January 24, 2020, two days after Gabby's arrival at Wildwood Pretrial Facility, SOA, DOC Mental Health Clinician Beth Selby evaluated Gabby and noted that she was "marginally cooperative" and would only give "yes" or "no" answers to questions,

but documented that “Security reports she has been cooperative.” Mental Health Clinician Selby cleared Gabby for housing.

105. The very next morning, on January 25, 2020 at 0900 hours, SOA, DOC personnel observed a very serious deterioration of Gabby’s mental health.

106. On January 25, 2020, Gabby was observed by SOA, DOC security and medical staff experiencing a serious mental breakdown, and harming herself.

107. At 0900 on January 25, 2020, Gabby was observed verbally threatening SOA, DOC security staff, punching the door, window, and wall of her cell, and attempting to break the toilet in her cell.

118. On January 25, 2020, Superintendent Shannon McCloud signed Gabrielle's individual determination for segregation, and Gabrielle was placed in administrative segregation.

I. Despite Gabby Being On Suicide Precautions and Experiencing a Serious Mental Breakdown, Defendants Continually Failed to Follow SOA, DOC Policies.

119. Section VII of the Suicide Prevention policy, 807.20, states as follows:

VII. Housing:

Any prisoner determined to be at increased risk of self-injury or suicide shall be housed in a suicide prevention cell. Employees shall respect and ensure the safety and well-being of prisoners when on suicide prevention status:

- A. Each institution shall designate a suicide resistant cell(s) or areas that ensure:
 - 1. A clear and unobstructed view of the prisoner at all times. Windows shall not be covered;
 - 2. Staff interaction with the prisoner; and
 - 3. Quick intervention should the prisoner engage in self-injurious behaviors.

152. There were mental health treatment programs and substance abuse treatment programs at the time located in Kenai, Soldotna, Ninilchik, and Homer that would have been able to provide Gabby with treatment based on any mental health and substance abuse evaluations and recommendations.

153. In Attorney Etengoff's experience, people generally do well in treatment and recovery for their mental health and substance abuse issues when their treatment is monitored through the district attorney's office. There is significantly less recidivism for people as well when their treatment is monitored through the district attorney's office.

359. Defendant SOA, DOC has asserted Eleventh Amendment immunity under the United States Constitution to all state law claims asserted by Plaintiffs in federal court.

361. Defendants had a special relationship with Gabrielle Chipps in that she was in SOA, DOC care, giving rise to a legal duty to exercise the utmost caution under Alaska law and the Alaska Constitution, including but not limited to Article 1, Section 7 of the Alaska Constitution to provide Gabby with appropriate mental health and medical care and monitoring/supervision, including, but not limited to, conditions of confinement that would have prevented injury to Gabby while she was in the care of Defendants and SOA, DOC.

366. At the times relevant to this complaint, because SOA, DOC and Defendants had custody of Gabby, thereby depriving her of her opportunity to obtain independent medical care, Defendants had a special relationship with her that imposed a heightened common law duty of care upon Defendants to protect her.

407. Defendants knew, or should have known, that Gabby was experiencing a serious mental health breakdown. Defendants also knew, or should have known, that Gabby had received a "time served" offer from the Kenia District Attorneys' Office, which would allow her to be released from segregation housing and the custody of Defendants under the terms of the offer.

408. Instead of providing mental health treatment for Gabby, Defendants ignored, neglected, and aggravated her mental health breakdown.

409. Defendants engaged in conduct and omissions described herein in violation of 42 U.S.C. Section 1983.

415. Defendants did not take reasonable available measures to abate or reduce the risk of serious harm, even though a reasonable officer under the circumstances would have understood the high degree of risk involved, making the consequences of Defendants' conduct obvious.

416. Defendants acted and failed to act with deliberative indifference to a known or obvious danger.

417. Defendants' affirmative actions and failures to act that created the actual, particularized danger caused injury to Gabby that was foreseeable.

419. Defendants, acting under color of law in their individual and personal capacities, were deliberately indifferent to Gabby Chipps' rights, privileges, and immunities protected under Alaska law, the Alaska Constitution including but not limited to Article 1, Section 7, and the Eighth and/or Fourteenth Amendments of the United States Constitution. Defendants had more than 10 years actual notice that such failures were in violation of national standards, and in violation of SOA, DOC suicide prevention policies while Gabby was in SOA, DOC care.

420. Defendants' acts and failures to act were so closely related to the deprivation of Gabby's rights as to be the moving force that caused the ultimate injury.

421. As a direct result of the conduct and omissions of Defendants, Gabby Chipps has suffered and will continue to suffer permanent bodily and physical injuries, emotional distress, pain and suffering, anguish, medical costs, loss of enjoyment of life, general, special and consequential damages, and a deprivation of constitutional rights in an amount not yet ascertained but to be determined at trial.

As a direct result of Defendants' conduct and omissions, Plaintiffs have been compelled to hire attorneys to bring this action and render legal assistance to Plaintiffs to seek recovery for the loss due to the deprivation of Gabby Chipps' constitutional rights. Consequently, Plaintiffs seek payment by Defendants of reasonable attorney fees, expert fees, and costs pursuant to 42 U.S.C. Section 1988.

426. Defendants directed their subordinates in these actions and failures to act that deprived Gabby of these rights.

427. Defendants set in motion or knowingly refused to terminate the series of actions and failures to act by their subordinates that they knew or reasonably should have known would cause the subordinates to deprive Gabby of these rights.

428. Defendants knew their subordinates were engaging in these actions and failures to act and knew or reasonably should have known that their subordinates' conduct would deprive Gabby of these rights; and Defendants failed to act to prevent their subordinates from engaging in such conduct.

429. Defendants disregarded the known or obvious consequence that a particular training deficiency or omission would cause their subordinates to violate Gabby's constitutional rights; and that deficiency or omission actually caused their subordinates to deprive Gabby of her constitutional rights.

430. Defendants engaged in acts and failed to act, showing reckless indifference to the deprivation by their subordinates of the rights of others.

431. Defendant's acts and failures to act were so closely related to the deprivation of Gabby's rights as to be the moving force that caused the ultimate injury.

432. As a direct result of the conduct and omissions of Defendant Sprenger and other related Defendants, Gabby Chipps has suffered and will continue to suffer permanent bodily and physical injuries, emotional distress, pain and suffering, anguish, medical costs, loss of enjoyment of life, general, special and consequential damages, and a deprivation of constitutional rights in an amount not yet ascertained but to be determined at trial.
